Shanette - your storage solution

Established in 1983, Shanette are the largest and longest established manufacturer of Sectional (Panel form) steel buildings in Ireland and are now exporting to the UK.

Our buildings are designed using the latest 3D computer modelling to withstand the forces of wind and snow to European construction standards, and are built using high strength structural steels. We produce quality steel buildings at competitive prices, direct from the factory. With over 34 years' experience in our field of business, our level of expertise and know-how is second to none.

The prefabricated panels require no maintenance and are easily installed. With a wide variety of sizes, styles and finishes, we can custom build your unit to suit your budget and needs.

We design and manufacture secure, certified, insulated space, that protect our customers investments.

Which range should I choose?
