

A solid foundation to build upon

The end result of any driveway, shed or building is only as good as what lies beneath the surface!

BoMag Groundworks is a local business that prides itself in delivering first rate groundwork services. We specialise in concrete bases, concrete surfacing, drainage and hard landscaping ensuring your investment in a shed, building or driveway stands the test of time.

Based centrally in Kilbeggan, Co. Westmeath, we offer services throughout Ireland and we serve domestic, commercial and industrial sectors.

BoMag Groundworks Ltd

Quality Contractors

Providing top quality groundwork services in the Midlands

BoMag Groundworks

Experience in delivering bases

We have a reputation of delivering quality bases to the highest standard of workmanship

Land and sub-base preparation

Sometimes, it's the things you don't see that are the most important. BoMag Groundworks use only the highest quality suppliers of aggregate, concrete and sand to ensure the highest standards of finish.

BoMag deliver each layer of the sub-base to recommended depth and thickness to deliver stable and well prepared groundworks ready for the finish surfacing material or building.

The early stages of your project may require us to clear land before getting started on the groundworks — this is something we are more than happy to help with! BoMag Groundworks can also remove any waste generated from site.

Depending on your choice of surface, shed or building, we can excavate and prepare land to the required depth of the project. Floors can also be insulated to minimise heat loss.

Our dedicated groundworks services:

- Shed Bases and Foundations
- Driveway Surfacing
- Groundworks for Fencing
- Sewers and Drainage
- Kerbing and re-instating
