Gold Range High Storage Units

Our Gold Range is crafted using high-quality insulated composite panels, boasting a minimum of 40mm of insulation for both the roof and walls. These panels are designed to endure various weather conditions, thanks to their PVC-coated exterior sheet, ensuring long-lasting climate protection. On the interior, both the walls and the roof feature a smooth, easy-to-clean, white metal finish. These units have the advantage of retaining heat when they are heated. **We recommend heating all Gold Range units for optimum dry storage conditions.**

Key FEATURES

- Choose from **40mm** or **80mm** insulated composite panels in both roof and wall structures.
- White metal interior wall finish.
- 100mm Heavy duty fully galvanised CE certified steel framework.
- Pre-fabricated roof & wall panels for easy site installation.

2 AVAILABLE OPTIONS

- 40mm or 80mm Horizontal Flat Panel Cladding.
- From 40mm up to 120mm Vertical Box Profile Cladding.
